**A STUDY ON THE INFLUENCE OF THE DYNAMICS OF ETHICAL
VARIATION ON GEOGRAPHICAL AND CULTURAL CHANGES**

Sanjay Basu

Abstract

Ethics, being one of the fundamental pillars of human life, is not static but varies depending on geographical locations as well as cultural contexts. This research paper delves into the intricate relationship between geography, culture, and ethical frameworks; aiming at for understanding how geographical and cultural changes influence ethical perspectives and practices; and vice-versa. Through a comprehensive review of literature and case studies from various regions, this paper in the one hand, elucidates the complexities of ethical variations and offers insights into the mechanisms underlying these variations and how to navigate ethical challenges in an increasingly interconnected world on the other hand, by recognizing the divergent ethical landscapes shaped by geography and culture.

Keywords: Ethics, Geographical Variation, Cultural Variation, Ethical Frameworks, Globalization, Cross-Cultural Ethics
